

Nebbiolo Grapes

Nebbiolo Grapes 2009
International convention on Nebbiolo
Sondrio, 27/28/29 March 2009

Sessions on Nebbiolo

Friday
27/3

Scientific convention

10.30/13.00 - Sala Unione Artigiani, Sondrio

Chairman, **Oswaldo Failla** (Professor of Viticulture at the Milan University)

Issues which have been investigated:

1. The grape variety
2. The territory
3. Its cultivation
4. Its vinification

Topics which will be debated:

The genetic origin of the grape variety and its intra-varietal variability, the comparison of the different terroirs in which Nebbiolo is grown in Italy and in other parts of the world, its agronomic and oenological peculiarities and improvements achieved through varietal oenology and the microbial terroir. There will also be interesting contributions from scholars and researchers of the Milan and Turin Universities as well as from other countries

Debate on the territory, the environment and a new approach to communication

15.00/17.30 - Sala Unione Artigiani, Sondrio

Chairman, **Giacomo Mojoli** (Journalist and referent of the University of Gastronomic Sciences)

Topics which will be debated:

1. Detailed description by Valtellina operators of open issues relating to wine production, safeguarding the territory and economic sustainability
2. Presentation of tangible examples of sustainable development in Italy and abroad
3. The evolution of communication

Environmental economy and marketing experts as well as print journalists and communication design representatives will participate in the debate
